

C1: CONTEXT DIAGRAM

C2: CONTAINER DIAGRAM

C3: COMPONENTS DIAGRAM

Diagram	Architectural Element	Tactic	Potential ATTACK Techniques	Description	Required Mitigations
C1	Electronic Health Record System	Initial Access	WiFi Networks (T1608)	Exploiting open Wi-Fi access points for initial access	M1041, M1032, M1030
C2, C3	Payment Database, Patient Database	Credential Access	Brute Force (T1110)	Attempts to guess passwords through repeated login attempts	M1036, M1032, M1018
C2, C3	Payment Database, Patient Database	Collection	Data from Information Repositories (T1213)	Adversaries mining valuable information from repositories	M1047, M1041, M1032, M1018
C2, C3	Payment Database, Patient Database	Exfiltration	Exfiltration Over Web Service (T1567)	Adversaries exfiltrate data from legitimate external Web service	M1057, M1021
C3	Security Component	Persistence	Modify Authentication Process (T1556)	Adversaries may modify authentication mechanisms and processes for unwarranted access	M1047, M1032, M1022, M1025
