

C1: CONTEXT DIAGRAM

and patient notes

<u>Diagram</u>	<u>Architectural Element</u>	<u>Tactic</u>	<u>Potential ATT&CK Techniques</u>
C1	Electronic Health Record System	Initial Access	Wifi Networks (T1669)
C2, C3	Payment Database, Patient Database	Credential Access	Brute Force (T1110)
C2, C3	Payment Database, Patient Database	Collection	Data from Information Repositories (T1566)
C2, C3	Payment Database, Patient Database	Exfiltration	Exfiltration Over Web Service (T1573)
C3	Security Component	Persistence	Modify Authentication Process (T1555)

	<u>Description</u>	<u>Required Mitagations</u>
	Explointing open Wi-Fi access points for intial access	M1041, M1032, M1030
	Attempts to guess passwords through repeated login attempts.	M1036, M1032, M1018
es (T1213)	Adversaries mining valuable information from repositories	M1047, M1041, M1032,
567)	Adversaries exfiltrate data from legitimate external Web service	M1057, M1021
1556)	Adversaries may modify authentication mechanisms and processses for unwarranted accesss	M1047,M1032, M1022, M

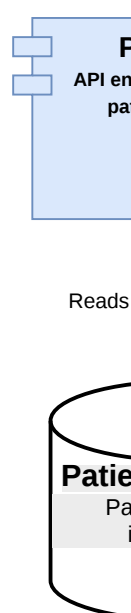

M1018
M1025
